

Science Eight

Teacher: Ms. Walsh & Mr. Roberts

Email: cwalsh@halifaxgrammar.ca

The Grade Eight Science program allows students to explore connections between science and everyday life. With inquiry at the core, students will work independently and collaboratively to investigate issues through research, observation, and experimentation fostering critical and creative thinking. Topics include biology, chemistry, and physics, with an emphasis on global contexts and real-world applications.

Topics/Units:

Unit 1. Body Systems

Unit 2. Digestion and Nutrition

Unit 3. Optics

Unit 4. Magnets and Static Electricity

Unit 5. Water Resources

Texts: Morris, P. and Deo, P (2017) MYP3 by Concept 3. Hodder Education Group

Materials: Assorted lab equipment, rulers, laptops, calculators.

Extra Help

Extra help will be provided when needed. It will usually be scheduled at lunch on specific days which will be posted on Google Classroom

Assessment

Learning skills: Engagement (behaviour, participation, and assignment completion) will be assessed and reported on qualitatively. These results will be reported on in report card comments and at parent-teacher interviews.

Summative assessment: This course will assess students across the following MYP Year 3 criteria:

- Criterion A: Knowing and Understanding
- Criterion B: Inquiring and Designing;
- Criterion C: Processing and Evaluating
- Criterion D: Reflecting on the Impacts of Science

2025-2026 Percentage Distribution

- Unit 1: 16%
- Unit 2: 16%
- Unit 3: 16%
- Unit 4: 16%
- Unit 5: 16%
- Final Exam: 20%

While we transition into fully implementing the MYP, some assessments will use MYP rubrics, and some will not. When students are given feedback throughout the term using a 1-8 scale, the teacher will use their professional judgment to convert the mark to a percentage using the table below.

Descriptor	Emerging (Needs Improvement)		Developing (Satisfactory)		Proficient (Good)		Mastery (Excellent)	
Achievement Level	1	2	3	4	5	6	7	8
Percentage Range	0-39%	40%-49%	50%-62%	63%-75%	76%-82%	83%-89%	90%-95%	96%-100%
